

International Symposium on

Biotechnology: Newer Tools for a Newer Era

AN ADVANCED COURSE ON APPLIED BIOTECHNOLOGY

29-30th November 2005

Auditorio de la USC
Santiago de Compostela

Registration deadline:
20th November

CONTENTS

Aquaculture biotechnology
Biochemical engineering
Bioengineered food
Cancer therapy
Chloroplast engineering
Functional genomics
Gene silencing
Prion diseases
Transgenic livestock

Organizers:

Tomás G. Villa
Ignacio Zarra Cameselle
Jorge Barros Velázquez

Charles Samuel

University of California, Santa Bárbara, USA

Philip N. Bryan

University of Maryland, Rockville, USA

Juan C. Alonso Navarro

Centro Nacional de Biotecnología, Madrid, Spain

Michael Metzloff

Aventis Cropscience, Gent, Belgium

Pal Maliga

Rutgers University, Piscataway, USA

Vicente Notario

Georgetown University, Washington DC, USA

María Gasset

Instituto de Química Física Rocasolano, Madrid, Spain

Charles J. Arntzen

Arizona State University, Tempe, USA

Choy L. Hew

National University of Singapore, Singapore

Eckhard Wolf

University of Munich, Germany
